

# **64<sup>TH</sup> REPLACEMENT TO SCHWEINFURT**

While in-processing at 64<sup>th</sup> replacement, soldiers will have their pinpoint verified and a POV release memorandum printed. All Soldiers Major and below are required to process through the 64th Replacement Company when on orders to USAREUR units in Germany. All arriving soldiers will place their bags in the storage area prior to entering the building. They will need to have their ID card, copy of orders, and DA 31 leave form available upon entering. At 1030, 64<sup>th</sup> will give the PCS briefing to all the soldiers that have arrived up to that point, as they cut all bus manifests by 1300 each day. In their briefing, they describe the rules and regulations for the area and services provided for your brief stay.

After you have turned in their in-processing sheet, they compare your information with what they have in the 1PERSCOM personnel system. Remember: 64th Replacement Company does not make assignments, that is done by 1PERSCOM! If you have concerns or discrepancies, please address this with your chain of command or branch manager. Also, please make certain that your orders include your dependents on them as command sponsored; otherwise you cannot bring them to Germany!

Once this process is complete everyone will reload the buses and you will be transported straight to the Schweinfurt IN and OUT Processing Center (IOP) on Ledward Barracks.
